The player has to Jump, Shooting on the air. There are stars falling from the sky. Jump on it to gain points. There are 6 characters to control. Controls: Arrow Keys to Move, Space bar to Shoot How to play: When the stars fall and you press space bar, it will Shoot. It's mainly a fun game for adults. Source Code: Made With Unity Game Maker Studio A: I'm still not sure how to name this submission, but it's definitely a game with "Brk" in the title. The idea and general mechanics are similar to Brkty, but the theme is different. The goal is to jump left or right on a set of lines, shooting towards the end of each line, to earn points. The game ends when the line segments disappear. The red line is the original set of segments, the orange is my current set of segments. I'm trying to figure out how to make this version work with up to 3 sets of segments, like the original. ## **What's new in Game Breaker:**

**Needy of Speed's first downloadable content since the car-racing title returned to Kinect N Get your cheesy, over-the-top gangster bitch on and read on. I think I can speak for everyone when I tell you that since the original "Need for Speed" (which is a funny name for a racing game, pardon my French) title was released, we all figured we'd see some really awesome content packed inside the game to keep us from having to leave work and drive to our local arcade to play. We figured wrong. Luckily for us, EA Access subscribers on Xbox Live can get their Need for Speed fix today, as the publisher just dropped 15 hours of extra content into the game. It's free, and although it technically doesn't require Kinect (which you don't have anyway, since you don't pay \$60 for a game that requires the console that contains the disk drive), it does require the full version of Need for Speed Rivals. So, as a time-strapped reader, I won't be violating any of my tires by telling you whether or not to pony up 12 bucks for the game and \$60 for its season pass, although I suspect most of you are perfectly willing. Still, I'd just as soon go another route. I'd rather spend 12 bucks to experience all of the content in the game that I wouldn't have to play through twice. As one might imagine, Need for Speed: Rivals had what we felt was a fairly short amount of content for 15 total hours of play. While the cars are completely new, the track list isn't, and neither is the game's general rule set. It also includes many features that you might assume you would only see in a racing game sequel: different weather conditions, different time of day options, a dedicated leaderboard, and a driving system inspired by fan-favorite "Dead Rising 2". Need for Speed: Rivals - The Story There's no denying that the story is not the best story; it's simply the story. However, the surrounding action is awesome. I'm not going to go through all of the plot points, but we all already know the basic premise: Rivals follows the FBI's attempts to stop a Los Angeles gang known as "Dirtbags" from selling**
